

MAURITANIA

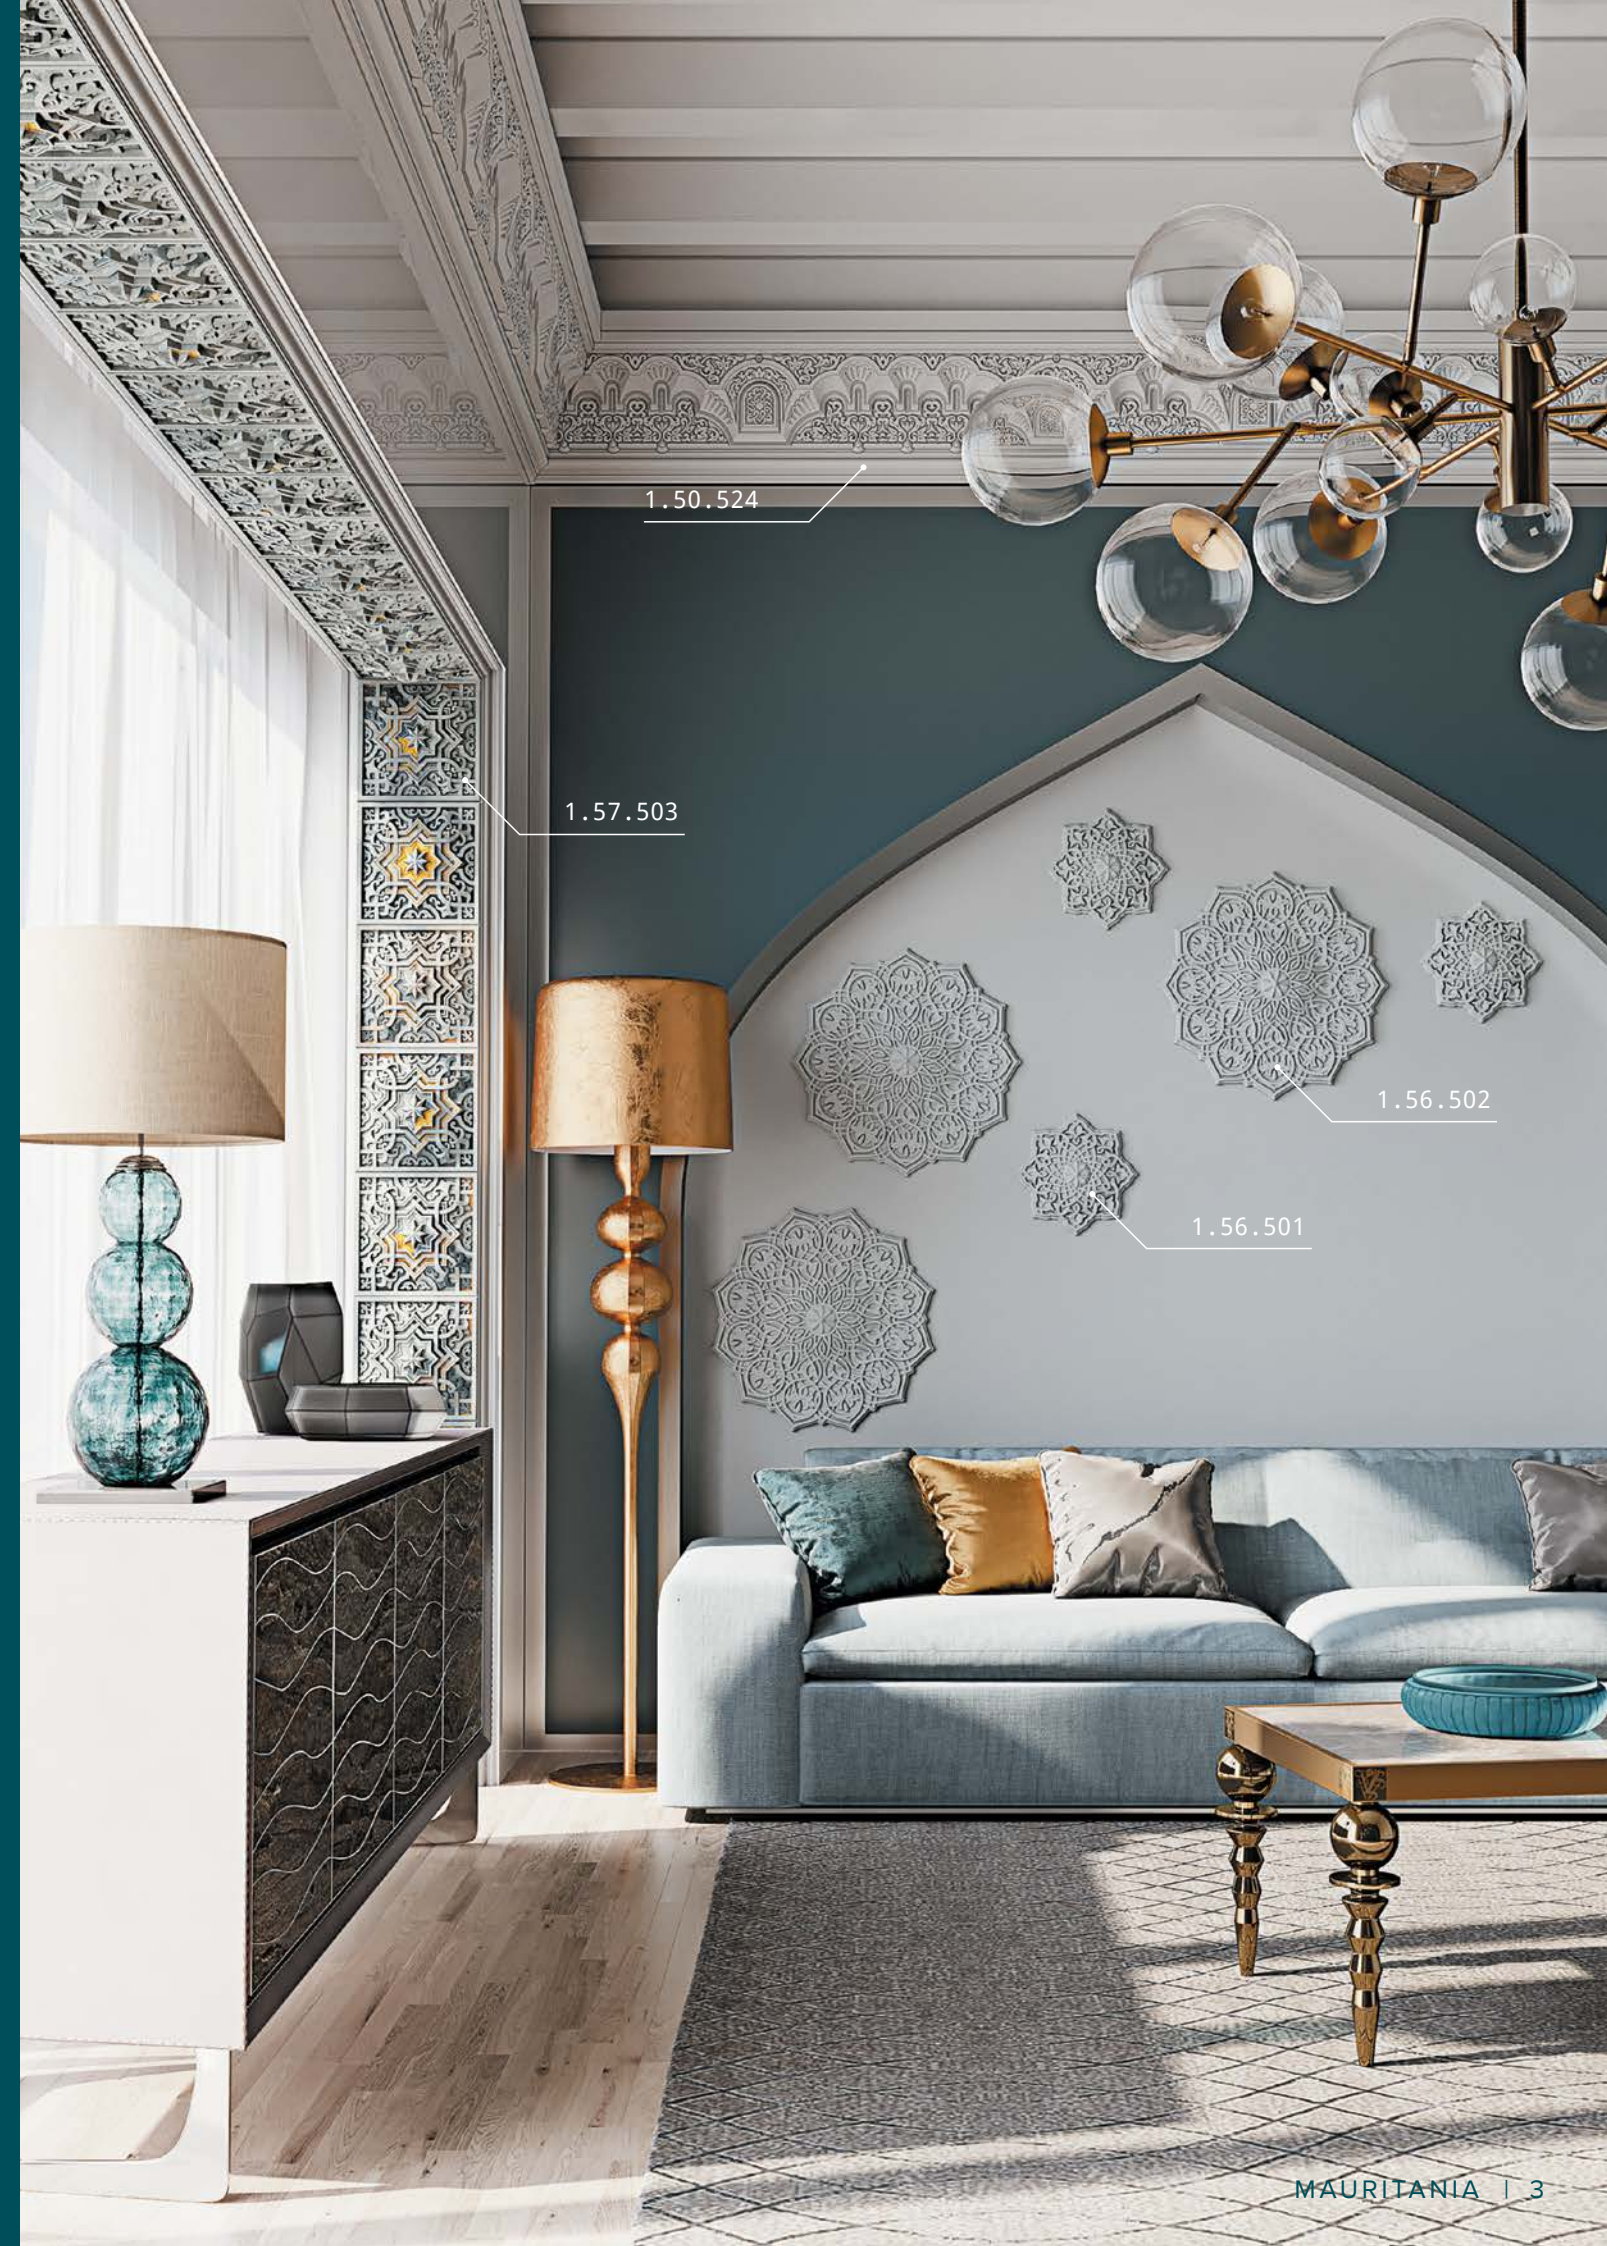

GAUDI
ARCHITECTURAL SOLUTIONS

The whole sophistication, refinement and authenticity of Oriental aesthetics have been translated into the decor collection called «Mauritania» by Evroplast, created by designers Anton Lyubarev and Elena Lyubareva. Exquisite trceries have become intertwined to create scenic paintings, enriching the space with a magical atmosphere of the Arabian Nights.

The collection includes cornices, mouldings and baseboards, as well as wall panels with rich ornaments. The elegant and delicate patterns of the collection resemble traditional gypsum carvings — a unique ancient form of Central Asian artistical handicraft.

Mauritania is distinguished by its integrity, so all its elements are combined with each other and help to create a truly special interior with an individual character.
